This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

THE ACADEMY OF POLITICAL SCIENCE

IN THE CITY OF NEW YORK

The Academy of Political Science is affiliated with Columbia University and is composed of men and women interested in political, economic and social questions. The ANNUAL DUES are five dollars. Members receive the Political Science Quarterly and the Proceedings of the Academy—issued as Supplements to the Quarterly—and are entitled to free admission to all meetings, lectures and receptions under the auspices of the Academy.

COMMUNICATIONS regarding the Academy should be addressed to THE SECRETARY OF THE ACADEMY OF POLITICAL SCIENCE, Columbia University.

THE POLITICAL SCIENCE QUARTERLY

Managing Editor

THOMAS REED POWELL

The Quarterly follows the most important movements of foreign politics but devotes chief attention to questions of present interest in the United States. On such questions its attitude is nonpartisan. Every article is signed; and every article, including those of the editors, expresses simply the personal view of the writer. Each issue contains careful BOOK REVIEWS by specialists, and in March, June, and December numerous recent publications are characterized in brief BOOK NOTES. In September is printed a Supplement, containing a valuable RECORD OF POLITICAL EVENTS throughout the world.

COMMUNICATIONS in reference to articles, book reviews and exchanges should be addressed to the POLITICAL SCIENCE QUARTERLY, Columbia University, New York City. Intending contributors are requested to retain copies of articles submitted, as the editors disclaim responsibility for the safety of manuscripts. If accompanied by stamps, articles not found available will be returned.

SUBSCRIPTIONS should be forwarded and all business communications addressed to the publishers, GINN & COMPANY, Lancaster, Pa., or 70 Fifth Avenue, New York.

Yearly subscription, including Supplements, five dollars; single number, not including Supplement, one dollar. Supplement containing Record of Political Events, one dollar. Back numbers and bound volumes can be obtained from the publishers.
